Drilling Rig - it's all about making connections

Major work has and is being carried out on the drilling rig. Many volunteers from England, working alongside Kenyan men (who are paid a wage), have completed numerous, dirty, mechanical jobs and we are grateful to everyone who has helped. Kenyans- Leo, Jacob, Benje, Zeddy's, Wakhungu and Mr Singh. From England, Les Saunders (Trustee and Operations Manager), Nick (from Cheshire), David Saunders (from Peterborough), Will Symons (Trustee) and John Harrison (Trustee): not all are seen on these photos

Here's your d-i-y activity to make the correct connections between the following photos (numbers) and their titles (letters) from the table below the photos.
